

The state of Indiana has a wonderful "no call" system. It has reduced the amount of unwanted "bolier room" calls.

Please do NOT pass Federal regulations that would water down the Indiana "No Call" system.

If a Federal reg. is installed in the arena of nuisance calls, it should be a "minimum" reg. that allows States like Indiana who have taken a proactive role to keep their current successful "no call" list & regulation.

The telephone is a necessicity these days and unwanted calls are an unwanted intrusion that bothers me, especially during meals or important family conversations, even if they aren't answered. Boiler room cold calling is an intrusion into our privacy and Indiana's method is very good for those of us who want to maintain some privacy./

Please do NOT dilute Indiana's "NO Call" process by mandating something less at the Federal level!!!!!!
